

# Henry Elliott - 2004 Modern S-Type

I purchased my 2004 silver S Type Luxury almost 3 years ago from Bill Browne, a well-known JDCSA member.

I am the third owner and the car had averaged 10,000kms per year when I acquired it.

The original custodians were Queensland based and took the car with them when they moved to Victoria. Bill acquired it in 2010 and re-registered it in South Australia so it's well travelled!

The car now has 180,000kms on the clock but has been almost trouble free in my ownership. Being a luxury model it came with a television which no longer works as it was set up for analogue not digital but other than that it is fully functional.

It gets driven at least twice a week and does a Meals on Wheels run every Monday where it is much admired and raises a smile or two. One recipient even told me he was an apprentice with Steve Weeks (and let slip that Steve graduated top of the class)!

**Henry Elliott**
